

# SNAP Circuits Program!

Have a blast learning about electricity at the Dodgeville Public Library through SNAP Circuits Makerspace workshop for children in second – fifth grade. This workshop is designed for kids and teaches electrical basics through easy-to-use circuitry!

The registered workshop is 90 minutes long and will give the child an introduction to what SNAP Circuits can do.

Due to spacing, six children can register for the workshop.

**Wednesday,**  
**January 10, 2018**

**3:00—4:30**

Limited to 6 patrons.

**Recommended:**  
**second—fifth grade.**

**IT'S A SNAP!**

Program leader:  
Carol Gleichauf & Mason Decker
